Experience

Frontend Developer Intern   Capelin Solutions   June 2024 – August 2024

- Structured web content using HTML and CSS3, utilizing Flexbox and Grid for responsive and accessible designs.
- Developed Java projects utilizing JDBC and MySQL for different database management.
- Developed dynamic and responsive web applications using React.js, optimizing performance and user experience.

Academic Projects

- **Airline Reservation Platform:**
- Developed an interactive airline reservation system using Java and Swing, integrating a JDBC-managed database for real-time flight search, booking, and cost optimization.
- **Hospital Management System:**
- Built a Java-based system with a MySQL database to manage patient records, appointments, and billing, improving operational efficiency.
- **Closet – Bridal & Groom Attire Rental:**
- Developed a React.js-based platform for renting bridal and groom outfits, featuring an intuitive UI, real-time inventory updates, and secure booking functionality.

Skills

- **Technical Skills:** C++, Java, JavaScript, ReactJS, HTML/CSS
- **Database:** SQL, MYSQL
- **Other Tools:** Github, VS Code, Intellij IDEA, NetBeans

Education

BS Computer Science   IBA University   2022 – Present

Achievements

- Awarded with Fully Funded Scholarship (Sindh Talent Hunt Program) for a period of four years.
- Published an article titled "Unfaithful Friend" in Dawn Newspaper on Dec 29,2022. Publication Link

Interests

- Artificial Intelligence and Machine Learning
- Web Development
- Mobile Development
